

Mounted Posters for Swingframes with Matboards

Poster Swingframes with a Matboard accept posters that are up to 1/16" thick. If your posters are mounted to a Backing Board up to 1/4" thick, we can reduce the thickness of the interior Backing Board and add a Strip Shelf.

When you place your order indicate the thickness of the board so that we can modify our Swingframes to accept your Mounted Posters.

Posters can be mounted on boards up to 1/4"

Repositionable Adhesive Tape

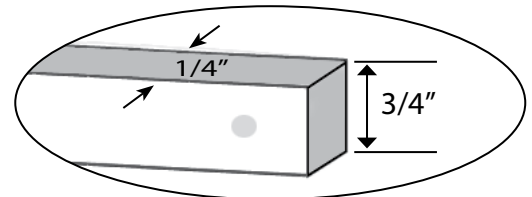

Example of Mounted Poster being placed into Swingframe

When closed, Mat Border will overlap the edges of the poster by 1/4"

Strip Shelf

- 3/4" Strip Shelving is mounted to the bottom of the "Swing Shell" Backing Board.
- Place Mounted Poster so that it rests on top of the strip which acts as a shelf.
- Repositionable Adhesive Tape will help secure the poster to the Swingframe backing.
